

Ski tour Drei Brüder Schafelkopf, 2.266 m

Details of the tour:

Altitude difference: 1.240 hm

Walking time: approx. 3 hours

Starting point: 5671 Bruck, Hauserdorf, farm Kesselriß 1.019 m

Maximum steepness: 40 degrees

Tour time: entire winter

Highlight: View from the summit to the Zeller See and Hoher Tenn.

Route: First along the forest road, later shortening through the forest, always following the summer markings to the Erlhofalm. Now the view of the steep part of the tour is clear. From the alpine huts through a gentle depression and over the following hill briefly through sparse trees into the increasingly steeper and narrower cirque between Breit- and Schafelkopf. In the upper part turn left (east) past a rocky ridge and into the saddle (signpost). In the ascent direction to the right along the ridge to the steep summit ascent. Depending on the conditions, ski or walk, possibly avoiding the southern flank (very steep!), to the summit.

Descent: as ascent.

Weather info: Find out about the weather situation in the touring area before each tour, e.g. at www.wetter.orf.at or www.zamg.at

Avalanche information: Before each tour, find out about the current avalanche situation in the touring area, e.g. at www.lawine.salzburg.at.

In any case, avoid ski tours when there is a warning for avalanche danger.
