

Ski tour Hocheiser, 3.206 m

Details of the tour:

Altitude difference: 1.200 hm

Walking time: 3,5 hours

Starting point: Uttendorf - Enzingerboden - gondola to Rudolfshütte

Tour time: entire winter

Highlight: First ascent with cable car Weißsee. View of the Großvenediger.

Route: descent northward 300 hm to the middle station of the old cable car near the Tauemmoos dam, over this further northward into the wide Schwarzkarl. Now eastward over a steep step and a bit along the Unteres Hocheiserkee until a wide passage opens on the northeast side between two rock bands to the height of 2,883m. Here southwards over the Obere Hocheiserkee to the summit.

Descent: As ascent to the Schwarzkarl, but now northward into the flat Kühtauern and following the old construction road down to Enzinger Boden.

Weather info: Find out about the weather situation in the touring area before each tour, e.g. at www.wetter.orf.at or www.zamg.at

**Avalanche information: Before each tour, find out about the current avalanche situation in the touring area, e.g. at www.lawine.salzburg.at.
In any case, avoid ski tours when there is a warning for avalanche danger.**
