

Ski tour Kloben, 2.938 m

Details of the tour:

Altitude difference: 1.600 hm

Walking time: 1,5 hours

Starting point: Glocknerstraße, Fuscher Törl.

Tour time: May, June

Highlight: Spring classic. Relatively short ascent - long descent to Käfertal. Cab transfer to Hotel Römerhof in Fusch.

Route: First short descent southwestward into the enormous basin of the Brennkogelkeese, further flat to the steepening in the basin end, westward steeply on a ridge and southward to the summit.

Descent: descent southwestward into the Spielmannscharte, westward down over the Spielmannkees to the basin and then northward into the valley. In the lowest third, keep to the left if possible, because the snow vault above the wild Pfandlbach can collapse!

Weather info: Find out about the weather situation in the touring area before each tour, e.g. at www.wetter.orf.at or www.zamg.at

Avalanche information: Before each tour, find out about the current avalanche situation in the touring area, e.g. at www.lawine.salzburg.at. In any case, avoid ski tours when there is a warning for avalanche danger.
